

# Info and Quick Guide

*Hot Rocks – Photoshop Text Action*

Photoshop Text Action in high resolution 300 DPI is perfect for any kind of your print work or web design.

## Features:

1. 1 Click Action
2. Layered sparks and smoke
3. Works in Hi-res 300 DPI
4. Great Tool for any Print Template or Web design
5. 1 ATN File, 1 PAT file and 1 ABR file included
6. 1 PAT File – with used patterns
7. Recommended font Montserrat Black

## How to apply Actions on your own Text:

1. Open your Photoshop and start **New Document (300 DPI)** or open the **rock-background.PSD**.
2. Now Choose OPEN from **Menu > File > Open** and open **hot-rocks.atn** (Action File) + **hot-rocks-pattern.pat** (PAT file) + **hot-rocks.brushes.abr** (ABR file)
3. You need to do the step above only once. Now use your text tool to write some text (any color).
4. Now hit **Alt+F9** (Mac users Cmd+F9) to open the Actions window.
5. Collapse the **Hot Rocks** folder and select **Play**, then hit the **play button** to apply the action.

## How to hide sparks or smoke:

1. After the action is done, you can collapse the **Hot Rocks** folder, where you can find **Sparks and Smoke** folder.
2. Collapse it and now you can hide some of the layers with sparks or smoke.

## Recommended free font: [Montserrat Black](#)

### TIP:

These Actions are made for 300 DPI documents, so if Your effect isn't right, try to scale up the text or scale it down, if the effect is too small for you. You can scale it down after the action is done.
